

Tony Randone graduated from Omaha Westside High School. He earned a Bachelor of Science degree in Marketing Management from Bellevue University.

Tony has been working for Roadbuilders Machinery & Supply Co for almost 20 years. He has been working closely with a multitude of utility contractors helping provide solutions to increase jobsite production and better ROI for their equipment fleet.

Tony said, “The reason why I feel I should be a candidate for the NUCA of Nebraska Board of Directors is the fact that I get a chance to participate on this board as an associate and not an owner/operator.

Business owners all have differing views of today’s work environment as it pertains to their specific business. I feel that I can look at a topic/issue and provide a non-biased option as not being tied to my business. In 20 years of working in this industry I have been able to work with customers in the field, along with owners in office and everywhere in between. I feel that I can add a fresh perspective on how NUCA of Nebraska can continue to grow as a group.”
