

Dave Tafolla

After separating from the Army in 2006, Dave began attending the University of Nebraska at Omaha and working for Nebraska Machinery Company. In 2010, Dave graduated from UNO with a degree in Marketing/Communication Arts. After graduation, he began working for American Underground Supply (AUS).

Dave said, “For the last 12 years at AUS, I’ve had the opportunity to advance my knowledge of our industry and grow many professional relationships. I’ve been fortunate enough to have many great mentors and customers to help me along the way. I wish to be considered as an Associate Director because I believe my industry experience, professional relationships, and prior service on the NUCA board will help contribute to the success of our members and NUCA of Nebraska.”
